AND

Grade Counts of Unsold Nursery Stock

FROM

Jackson & Perkins Co.

❖ ❖ Nurserymen ❖ ❖

Newark, Wayne County, New York.

WHOLESALE ONLY.

❖ TERMS AND CONDITIONS OF SALE. ❖

PRICES.—The prices given in our trade-list are subject to change without notice. We are always pleased to give prices by letter, and as they vary so greatly throughout the season we can occasionally quote better prices on some items than are given in our list. *We especially recommend large buyers to write us for special quotations.*

PACKING.—We make no charge for packing beyond the actual cost of boxes and bales, which we make ourselves, and at the lowest possible figure. Our charges for boxes are as follows, and will be found to be much less than those of most other firms :

10 ft x 32 in x 32 in... ..	\$1 90	10 ft x 20 in x 20 in... ..	\$1 20
10 ft x 28 in x 28 in... ..	1 80	10 ft x 18 in x 18 in... ..	1 10
10 ft x 26 in x 26 in... ..	1 60	10 ft x 14 in x 16 in... ..	95
10 ft x 24 in x 24 in... ..	1 40	10 ft x 10 in x 12 in... ..	85
10 ft x 22 in x 22 in... ..	1 30		

SHIPPING.—We have the New York Central, the West Shore and the Pennsylvania Rail roads and can ship in any direction with the probability of prompt arrival at destination. The express companies represented here are the American, the National and the Adams. **All ship-ments travel at cost and risk of purchaser.**

TERMS.—Net cash, though for the convenience of customers of approved credit, 30 to 60 days' time will be allowed if required. Bills for fall shipments subject to draft Dec. 1st, and those for spring shipments subject to draft June 1st. Bills for goods sent at other than our regular fall and spring shipping seasons will be drawn for at the expiration of 60 days.

GUARANTEE.—We use the greatest care possible to have our stock true to name in all instances, and should any prove not true, we stand ready to replace it free of charge or to re-fund the purchase price, but do not hold ourselves liable to other damages than are herein named, and all our sales are made with this understanding.

ALL AGREEMENTS and contracts are made subject to loss of crop by drouth, floods, fire, insects, or other unavoidable causes.

No scale found anywhere in this locality. State inspector's certificate with every ship-ment. Stock fumigated if desired.

Grade-Count List of Unsold Stock and Wholesale Prices from

Roses.

NO. 1 GRADE, Strong, field-grown plants. Budded plants marked (b).

Climbing Roses, No. 1 grade.

9000 Dorothy Perkins, pink, 500 " " (b).	60 Helene, pink, 8¢
2-years plants, \$15 per 100; \$135 per 1,000	70 Russel's Cottage, crimson 6¢
1-year old, \$10 per 100; \$85 per 1000.	100 Seven Sisters, pink, 7¢
	900 Yellow Rambler, 10¢ (\$85 per 1000.)

Dorothy Perkins is a splendid, new, climbing rose. In foliage and habit of growth it is remarkably like Crimson Rambler; the flowers are very double, of good size and are borne in clusters of ten to twenty, the clusters being borne in racemes of three to five, thus often making a group containing fifty to sixty blossoms upon a single small branch. The petals are very prettily rolled back and crinkled; buds remarkably handsome; the color is a clear shell-pink and holds a long time without fading; very sweetly scented. It has been found by prominent florists to be a splendid forcing variety. A bed of "Dorothy Perkins" roses which we exhibited at the Pan-American attracted an immense amount of attention, although the plants were young stock which had been propagated only some eighteen months previous. **Mr. William Scott, the Ass't Sup't of Horticulture, expressed in the "Florists' Review" the following unsolicited opinion regarding the variety:** "Messrs. Jackson & Perkins Co., of Newark, N. Y., sent us last year some plants of their new Rambler Rose, 'Dorothy Perkins'. This has exactly the habit of the well-known Crimson Rambler. They did not make quite as vigorous a growth, but have flowered splendidly and have been very brilliant. **This seems to me to be a great acquisition, and I believe it to be a good forcing rose.** The individual flower is larger than the Crimson Rambler with not such heavy trusses, but it is a beautiful shell-pink in color."

ROSES, No. 2 Grade.

No. 2 Grade—These plants we especially recommend to nurserymen for transplanting, and with ordinarily good care and cultivation they should make fine, strong stock in a single season. Formerly we always pruned back all No. 2 plants, ready for transplanting, but finding that many of our customers consider these plants good enough for immediate sale, we now leave all wood upon them, except for removing irregular or unsymmetrical portions of the branches. They are carefully selected, evenly graded plants, very suitable for mailing or for use anywhere that an extra heavy grade is not required.

Hybrid Perpetual and Miscellaneous Roses, No. 2 Grade.

On own roots, \$4.50 per 100; \$40 per 1000; except as noted.

The Comet is a new variety introduced from England and described as follows by the originator: "The bunches almost approach grapes in size, being frequently 8 inches in length, with from 20 to 26 berries of enormous size, and of the most brilliant crimson color. It is a valuable fruit for dessert purposes, the juice is particularly refreshing and soft to the palate—it being without acidity. It will hang a long time in good condition. The 4-year-old plants are some that we have been propagating from but must now be removed to make place for new buildings.

No. 1 1/2 or Medium Grade, \$2.25 per 100; \$17.50 per 1,000, except as noted.

These Clematis were propagated from cuttings, potted in 2½ inch pots, grown in our green-houses for about five months, or until well established, and then allowed to become dormant. Then they were taken out of the pots and carefully packed away for spring delivery. This method makes them much more likely to succeed than if planted directly from the pots in a growing condition and also makes them much easier to handle.

Fruit Tree Stocks.

Having failed to secure all the land that we had counted upon for next spring's planting, we offer the following fruit tree stocks which we had provided for our own use.

French grown stocks. Prices taken at our cellars here.

6500 Mahaleb, 5-8 m/m, \$9 per 1000.
1000 Pear, 1 year, 7-12 m/m, branched roots, \$11 per 1000
1000 Quince, Angers, 1 year, 7-12 m/m, \$9 per 1000

American grown seedlings, all 1 year old.

We did not get these dug last fall and the quantities given are based only on field estimates, which are necessarily somewhat inaccurate. Orders are accepted therefore, subject to slight revision, should it be necessary, when the stocks are dug, graded and accurately counted.
